

## Martensen IP Client Nuvia Acquired by Qualcomm in \$1.4B Deal

by Martensen IP | Jan 18, 2021 | News

We are excited to announce that our client [Nuvia, Inc. has been acquired by Qualcomm](#) in a \$1.4B deal. Martensen IP Partner Barbara Courtney, who resides in Silicon Valley, has had long relationships with Nuvia technical folks going back to their respective previous companies, which led to our engagement with Nuvia. Our mission was to understand the company's valuable patentable innovations and turn them into intellectual property assets in a short period, while at the same time understanding the company posture in the marketplace. We're pleased to have achieved that objective. Congratulations, Nuvia!
