

Martensen IP Client REALM™ Global Wins Prestigious Inman Media Golden I Award

by Martensen IP | Aug 10, 2022 | News

Congratulations to Martensen IP client [REALM™ Global](#) for being honored with the Inman Media Golden I Award at a recent Luxury Connect event in Las Vegas. The unique REALM platform is the brainchild of successful realtor Julie Faupel and business partner Brennan Buckley. It expands the reach of realtors focused on luxury properties by eliminating barriers related to geography, brand or discipline.

Launched in 2020, the REALM platform now serves a global community of over 500 elite luxury real estate producers from more than 40 states, 12 countries and 110 real estate brands. The system combines real-time data, client lifestyle profiles and the expertise of a worldwide network of real estate professionals to create successful and lucrative matches between people and properties.

Martensen IP is proud to have helped the company secure its innovative technology with a patent obtained in record time, trademarks, and licensing agreements, and to serve as an ongoing resource to the REALM™ Global team.
